The Honorable William K. Reilly  
Administrator  
Environmental Protection Agency  
401 M Street Southwest  
Washington, DC 20460

Dear Mr. Reilly:

I am writing to you in regard to a new performance additive known as HiTEC 3000. This additive seems to play a substantial role in reducing smog-producing nitrogen oxide, as well as overall tailpipe emissions. Also, this additive is apparently compatible with ethanol, methanol and reformulated fuels.

With air pollution a major concern throughout the country, I feel it is imperative that all options be thoroughly examined. It is my hope that this additive be given prompt consideration by the Environmental Protection Agency.

Thank you for your time and attention to this matter.

Sincerely,

Ray C. Fletcher  
House Representative  
47th District

RCF:rhc  
Chairman of Air, Water and Soil Committee
